B.Sc. (Part—III) Semester—V Examination SEED TECHNOLOGY

(Seed Pathology and Seed Entomology)

| Time | : T1 | iree l | Hour | 5 | | [Maximum Mark | s:80 |
|------|--|---|---|---|----------------------------------|------------------------------------|------|
| | N.B | . :- | (1) | There are SEVEN question | ns in all. | | |
| | | | (2) | Question No. 1 is compul | sory and carrie | es 8 marks. | |
| | | | (3) | Question Nos. 2 to 7 carr | y equal marks. | Α, | |
| | (4) Draw neat and well labelled of | | | Draw neat and well labelle | ed diagrams wh | nerever necessary. | |
| 1. | (A) Fill in the blanks : | | | | | | |
| | | (i) | Pla | es in plants caused by pathogens. | 1/2 | | |
| | | (ii) | are the best pollinators in a building state during the bloom period of the | | | | |
| | | | cro | | | | 1/2 |
| | | (iii) | | d transmitted fungi are those he field. | that cause no i | nfection to seed itself but infect | 1/2 |
| (iv) | | | is a procedure by whic | h it can be dete | ermined whether the seed is heal | thy or | |
| | | | disc | eased. | | | 1/2 |
| | (B) Choose correct alternative : | | | | | | |
| | | (v) | Wh | at is meant by CSL? | | , | |
| | | | (a) | Central Success Laborator | ry _ (b) | Central Scientific Laboratory | |
| | | | (c) | Central Seed Laboratory | (d) | Central Science Laboratory | 1/2 |
| | | (vi) | Sec | ed Act to provide for regulating the quality of seeds for sale was established in : | | | |
| | | | (a) | 1950 | (b) | 1966 | |
| | | | (c) | 1970 | (d) | 1961 | 1/2 |
| | | (vii) When growth and development of plant are delayed due to unfavourable weather, the virus infections in seed is: | | | | | |
| | | | (a) | Neutral | (b) | Decreased | |
| | | | (c) | Increased | (d) | None of these | 1/2 |
| | (viii) The pollination takes place by insects: | | | | | | |
| | | | (a) | Hydrophily | (b) | Anemophily | |
| | | | (c) | Entomophily | (d) | Chirapterophily | 1/2 |
| | (C) Answer in | | | in one sentence: | | | |
| | | (ix) | Sto | rage fungi | | | 1 |
| | | (x) | Sec | ed certification | | | 1 |
| | | (xi) | Pol | linators | | | 1 |
| | | (xii) | Ins | ceticides | | | 1 |

| 2. | Desc | www.FirstRanker.com | www.FirstRanker.com | | | | | |
|----|------------------------|--|---------------------|--|--|--|--|--|
| | (a) | Seed infection | 4 | | | | | |
| | (b) | Impact of storage fungi or human health | 4 | | | | | |
| | (c) | General account of seed borne viruses. | 4 | | | | | |
| | | OR | | | | | | |
| | (d) | Storage fungi | 4 | | | | | |
| | (c) | Impact of storage fungi on animal health | 4 | | | | | |
| | (1) | Economic significance of seed born diseases. | 4 | | | | | |
| 3. | Write short notes on : | | | | | | | |
| | (g) | Quarantines of seed health testings | 6 | | | | | |
| | (h) | Procedure of seed treatment | 6 | | | | | |
| | | OR | | | | | | |
| | Give | detailed account of equipments used in seed treatment. | 12 | | | | | |
| 4. | Comment on: | | | | | | | |
| | (i) | Seed certification | 4 | | | | | |
| | (j) | International cooperation in seed pathology | 4 | | | | | |
| | (k) | Seed Act of seed borne diseases. | 4 | | | | | |
| | | OR | | | | | | |
| | (I) | Post seedling stage inspection | 4 | | | | | |
| | (m) | Tolerance limit of seed borne pathogens | 4 | | | | | |
| | (n) | National cooperation in seed pathology. | 4 | | | | | |
| 5. | Wri | Write short notes on : | | | | | | |
| | (0) | Insects body and appendages | 6 | | | | | |
| | (p) | Insects pests and their management. | 6 | | | | | |
| | | OR | | | | | | |
| | (q) | Economic importance according to orders of insects. | 6 | | | | | |
| | (r) | Vegetables and dry fruits. | 6 | | | | | |
| 6. | Cor | Comment on : | | | | | | |
| | (s) | Preparation of spray solution | 4 | | | | | |
| | (t) | Methods of insect control | 4 | | | | | |
| | (u) | Uses of insect pollinators in crop pollination. | 4 | | | | | |
| | | OR | | | | | | |
| | (v) | Social structure of honey bees | 4 | | | | | |
| | (w) | Pre-harvest sanitation spray in insect control | 4 | | | | | |
| | (x) | Role of beneficial insects in seed production. | 4 | | | | | |
| 7. | Describe: | | | | | | | |
| | (a) | Furnigants | 4 | | | | | |
| | (b) | Plant protection equipments | 4 | | | | | |
| | (c) | Rodents and their control. | 4 | | | | | |
| | | OR | | | | | | |
| | (d) | Impact of seed protectants on seed viability | 4 | | | | | |
| | (c) | Detection of infestation | 4 | | | | | |
| | (t) | Types of seed equipments. | 4 | | | | | |
| | | | | | | | | |
