First Year BDS Degree Regular Examinations - August 2015

General Human Physiology and Biochemistry

Time: 3 Hours Max Marks: 100

- Answer all questions
- Draw diagrams wherever necessary
- Write SECTION A and SECTION B in separate Answer books(32 Pages).
 Do not mix up questions from Section A and Section B.

QP CODE:102002 Section A - PHYSIOLOGY Marks: 50

Essay (14)

 Describe the phases of gastric secretion and its regulation. List the composition and functions of gastric juice. (4+4+2+4=14)

Short essays (2x8=16)

- Draw a neat labeled diagram of neuromuscular junction. Explain how an impulse is transmitted across the neuromuscular junction
- Explain the action of insulin on carbohydrate, protein and fat metabolism. List the common complaints during diabetes mellitus.

Short notes (5x4=20)

- Complications of blood transfusion.
- Factors affecting glomerular filtration rate.
- Explain the stages of spermatogenesis. List the factors influencing it.
- Mention the important differences between first and second heart sounds.
- Explain the transport of carbon dioxide in blood.

QP CODE:103002 Section B - BIOCHEMISTRY Marks: 50

Essay (14)

 Name the aromatic amino acids. Discuss the metabolism of any one of them. Add a note on the associated metabolic disorders (2+8+4=14)

Short essays (2x8=16)

- 2. List the functions and deficiency manifestations of ascorbic acid
- Explain the transamination reaction with example and its significance

Short notes (5x4=20)

- Fluoride
- Structure of DNA
- Significance of HMP(hexose mono phosphate) pathway
- Lipoprotein
- 8. Hemoglobin structure and function
