General Human Anatomy including Embryology and Histology  Time: 3 Hours  Answer all questions Draw diagrams wherever necessary  Essays  (2x14=28)  1. Describe the sub mandibular gland under following headings: parts Relations Nerve supply Duct Applied anatomy Describe scalp in under the following headings: I alyers Blood supply Nerve supply Applied aspects (5+4+3+2=14)  Short essays  (4x8=32)  3. Describe lateral wall of nasal cavity under: I features blood supply nerve supply (4+2+2=8)  4. Derivatives of first branchial arch in detail with diagrams (6+2=8)  5. Explain digastric triangle under the following headings: Doundaries contents Describe atteral pterygoid muscle under following headings: Doundaries nerve supply actions  (4+4=8)  Short notes  Nort notes  (10x4=40)  T. Middle meningeal artery Individed meningeal artery Individed meningeal artery Short notes  Anatomorphic in the lateral ptery of the provision of the provis	QP Code: 101002	Reg.No.:	
Time: 3 Hours  Answer all questions Draw diagrams wherever necessary  Essays  (2x14=28)  1. Describe the sub mandibular gland under following headings: parts Nerve supply Duct Applied anatomy 11+6+3+2+2=14)  2. Describe scalp in under the following headings: layers Blood supply Nerve supply Applied aspects Nerve supply Applied aspects (5+4+3+2=14)  Short essays  (4x8=32)  3. Describe lateral wall of nasal cavity under: features blood supply nerve supply Applied aspects (5+4+3+2=14)  Short essays  (4x8=32)  3. Describe lateral wall of nasal cavity under: features blood supply nerve supply Applied aspects (5+4+3+2=14)  Short essays  (4x8=32)  3. Describe lateral wall of nasal cavity under: features blood supply nerve supply Applied aspects (6+2=8)  5. Explain digastric triangle under the following headings: boundaries contents (4+4=8)  6. Explain the lateral pterygoid muscle under following headings: attachments relations nerve supply actions (2+3+1+2=8)  Short notes  7. Middle meningeal artery 8. Intra cerebellar nuclei 9. Periosteum 10. Scalenus anterior muscle 11. Implantation 12. Barr body 13. Microscopic structure of optic nerve 14. Arterial supply of thyroid gland 15. Superior orbital fissure	First Year BDS	S Degree Examinations - August	2013
• Answer all questions • Draw diagrams wherever necessary  Essays  1. Describe the sub mandibular gland under following headings: • parts • Relations • Nerve supply • Duct • Applied anatomy (1+6+3+2+2=14)  2. Describe scalp in under the following headings: • layers • Blood supply • Nerve supply • Applied aspects (5+4+3+2=14)  Short essays  (4x8=32)  3. Describe lateral wall of nasal cavity under: • features • blood supply • nerve supply (4+2+2=8)  4. Derivatives of first branchial arch in detail with diagrams (6+2=8)  5. Explain digastric triangle under the following headings: • boundaries • contents (4+4=8)  6. Explain the lateral pterygoid muscle under following headings: • attachments • relations • nerve supply • actions (2+3+1+2=8)  Short notes  7. Middle meningeal artery  8. Intra cerebellar nuclei  9. Periosteum  10. Scalenus anterior muscle  11. Implantation  12. Barr body  13. Microscopic structure of optic nerve  14. Arterial supply of thyroid gland  15. Superior orbital fissure	General Human Ana	ntomy including Embryology ar	nd Histology
1. Describe the sub mandibular gland under following headings: • parts • Relations • Nerve supply • Duct • Applied anatomy (1+6+3+2+2=14)  2. Describe scalp in under the following headings: • layers • Blood supply • Nerve supply • Applied aspects (5+4+3+2=14)  Short essays (4x8=32)  3. Describe lateral wall of nasal cavity under: • features • blood supply • nerve supply (4+2+2=8)  4. Derivatives of first branchial arch in detail with diagrams (6+2=8)  5. Explain digastric triangle under the following headings: • boundaries • contents (4+4=8)  6. Explain the lateral pterygoid muscle under following headings: • attachments • relations • nerve supply • actions (2+3+1+2=8)  Short notes (10x4=40)  7. Middle meningeal artery 8. Intra cerebellar nuclei 9. Periosteum 10. Scalenus anterior muscle 11. Implantation 12. Barr body 13. Microscopic structure of optic nerve 14. Arterial supply of thyroid gland 15.
