Code No: 821AC

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD**MCA I Semester Examinations, July/August - 2021****COMPUTER PROGRAMMING USING C****Time: 3 Hours****Max.Marks:75****Answer any five questions****All questions carry equal marks**

- - -

- 1.a) What is a data type? List various data types in C and write about their sizes in bytes.
- b) Enumerate all the operators in C with appropriate examples. [6+9]
- 2.a) Evaluate the following expression in C with the values A=5, B=20, C=15, D=10
 $A + (B * C / D) - A + C * D$
- b) Write a C program to find biggest of given three numbers. [7+8]
- 3.a) Demonstrate all the decision making statements in C with examples.
- b) Write a C program to find the sum of 20 natural numbers. [9+6]
- 4.a) Differentiate between call by value and call by reference in C.
- b) Write a C program to generate Fibonacci series using recursive functions. [7+8]
- 5.a) How to define and declare multi-dimensional arrays? Give an example.
- b) Write a C program for multiplication of two matrices. [6+9]
- 6.a) Define a pointer. What are the advantages of pointers than arrays?
- b) Discuss about malloc() and calloc() memory allocation functions with suitable examples. [8+7]
- 7.a) Demonstrate self-referential structures in C with suitable examples.
- b) Explain about enumerated data types in detail. [9+6]
- 8.a) Write syntax and examples for fopen(), fclose() and fflush() functions.
- b) Write syntax and examples for positioning functions in C. [9+6]
