Directions: Read the following comments made about a *practical session*. Then answer the questions that follow by circling the letter of the **best answer**.

“In the general higher education programmes in the country, quite often, the students are at a loss, as to what skills are expected of them to be displayed at the end of each practical session. In such a situation, the effectiveness of developing the required skills gets missed out and the teachers concentrate more on the cognitive skills during the practical session rather than on the practical and social skills that can be very effectively developed during the practical sessions.”

Which one of the following propositions is most relevant with reference to practical sessions?

- A. Cognitive skills are only developed and ought to be assessed in the practical session.
- B. Social skills are only developed and ought to be assessed in the practical session.
- C. Cognitive skills *and* social skills are only developed and ought to be assessed in the practical session.
- D. Practical, social and cognitive skills are developed and ought to be assessed in the practical session.

Because of which of the reasons, it is not considered very effective for teachers to assess and give feedback about social skills and attitudes of the students:

- (i) It is not possible most of the time for teacher to observe the behaviour of students with each other when they work in teams.
- (ii) Considerable number of students behave differently when they know that they are being observed by teacher as compared to when teacher is not observing them.
- (iii) When teacher points out shortcomings in social skills and attitudes, considerable number of students take it teacher's prejudices towards them due to caste, gender, religions, economic status etc. and ignore the feedback. This also spoils the relationship between teacher and students.

Out of the above the correct reasons are:

- A. (i) and (ii) only
- B. (i) and (iii) only
- C. (ii) and (iii) only
- D. (i), (ii) and (iii)

A person having low monthly income holds the three values for years and behaves according to these values, which are:

- (i) I should never sell or mortgage ancestral property I have received from my ancestors
- (ii) I should provide best possible education to my children
- (iii) I should provide equal opportunity to both my son and daughter

It happens that both of his son and daughter get admission in Medical college, where he has to pay Rs.3 lakh per year for education of each for 5 years. This means he has to arrange Rs. 6 Lakh per year or Rs.30 lakh in five years, which is not possible with his salary. He can arrange at the most only Rs.15 lakh from his past savings and salary of next five years. This is enough only for son's education, and he is worried about his daughter's education, bank manager says that he may get Rs.15 lakh loan if he mortgages his ancestral property. There is a brain storming in his mind and he finally decides to mortgage the ancestral property by diluting the value number (i) in favour of value no. (ii) and (iii).

According to Krathwhol's taxonomy at what level is that person with respect to these three values:

- A. Receiving
- B. Responding
- C. Valuing
- D. Organizing

Because of which of the following reasons, writing down of the reflection about some critical events (both of success as well as of failure) in form of portfolio as compared to reflection only in mind is considered necessary:

- (i) Writing down reflections improves communication skills
- (ii) Writing makes thinking more rational and objective as compared to thinking without writing.
- (iii) Written reflections over a period of time can be used to refer back and find out a pattern of mistakes or shortcoming in behavior, so that it can be rectified.
- (iv) Written reflections can be shared with someone trusted and capable to obtain guidance

Out of the above the correct reason are:

- A. (i), (ii) and (iii) only
- B. (ii), (iii) and (iv) only
- C. (i), (iii) and (iv) only
- D. (i), (ii), (iii) and (iv)
