GUJARAT TECHNOLOGICAL UNIVERSITY

BE - SEMESTER– VII (New) EXAMINATION – WINTER 2019

Subject Code: 2170709 **Date: 26/11/2019**

Subject Name: Information and Network Security

Time: 10:30 AM TO 01:00 PM **Total Marks: 70**

Instructions:

1. **Attempt all questions.**
2. **Make suitable assumptions wherever necessary.**
3. **Figures to the right indicate full marks.**

Q.1	**(a)**	Define following principles of security: 1) Confidentiality 2) Integrity 3) Availability	**03**
	(b)	Describe Rail-fence cipher algorithm with example.	**04**
	(c)	Explain cryptanalytic attacks with example of any encryption algorithm.	**07**
Q.2	**(a)**	Explain one time pad algorithm with example and mention its strength and weakness.	**03**
	(b)	What is the difference between a mono alphabetic cipher and a polyalphabetic cipher?	**04**
	(c)	Encrypt the message “GTU Examination” using the Hill cipher algorithm with the key matrix $\begin{pmatrix} 5 & 17 \\ 4 & 15 \end{pmatrix}$. Show your calculations and the result.	**07**
		OR	
	(c)	Perform encryption in Playfair Cipher algorithm with plain text as “INFORMATION AND NETWORK SECURITY”, Keyword is “MONARCHY”. (Note: 1.Put j and i both combine as a single field in 5*5 matrix).	**07**
Q.3	**(a)**	Explain CFB algorithm mode with diagram.	**03**
	(b)	Describe the Diffie Hellman key exchange Algorithm with example.	**04**
	(c)	Draw block diagram to show Broad level steps in DES and also give steps of one round in DES with another diagram.	**07**
		OR	
Q.3	**(a)**	Explain Counter (CTR) algorithm mode with diagram.	**03**
	(b)	Differentiate block cipher and stream cipher algorithm with example	**04**
	(c)	Explain process of encryption in RSA Algorithm with suitable example. (Prime Number P,Q and Encryption Key E is given for reference) P=7, Q=17, E=7	**07**
Q.4	**(a)**	What are the principal elements of a public-key cryptosystem?	**03**
	(b)	What is a meet-in-the-middle attack in double DES?	**04**
	(c)	Briefly describe Mix Columns and Add Round Key in AES algorithm.	**07**
		OR	
Q.4	**(a)**	What is the role of a compression function in a hash function?	**03**
	(b)	What is the main difference between HTTP and HTTPS protocol. When HTTPS is used, which elements of the communication are Encrypted?	**04**

	(c)	Explain working of Secure Hash Algorithm, with basic arithmetical and logical functions used in SHA.	**07**
Q.5	**(a)**	Draw Generic Model of Digital Signature Process.	**03**
	(b)	Explain Elgamal Digital Signature Scheme.	**04**
	(c)	Describe MAC with its security implications.	**07**

OR

Q.5	**(a)**	What problem was Kerberos designed to address?	**03**
	(b)	Explain Schnorr Digital Signature Scheme.	**04**
	(c)	Explain use of Public-Key Certificate with diagram and draw X.509 certificate format.	**07**

****
