

**DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE**

Mid Semester Examination – Sept./Oct. 2019

Course: B. Tech in Information Technology

Sem: III

Subject Name: Object Oriented Paradigm with C++

Subject Code: BTITC303

Max Marks: 20

Date:- 05/10/2019

Duration:- 1 Hr.

Instructions to the Students:

1. Attempt all questions

2. Write programs wherever applicable

		(Level/CO)	Marks
<b>Q.1</b>	<b>Write answers for the following:</b>		6
	1. Define algorithm. Write any two characteristics of an algorithm.	CO3	
	2. State and explain whether the following statement is TRUE or FALSE? In procedure-oriented programming, all data are shared by all functions.	CO3	
	3. What is the purpose of a reference variable?	CO3	
	<b>4. Choose correct answer: A relational operator</b>	CO1	
	A. assigns one operand to another.		
	B. yields a Boolean result.		
	C. compares two operands.		
	D. logically combines two operands.		
	<b>5. Choose correct answer: A normal C++ operator that acts in special ways on newly defined data types is said to be</b>	CO1	
	A. glorified.		
	B. encapsulated.		
	C. classified.		
	D. overloaded.		
	<b>6. Choose correct answer: Library files can be included using</b>	CO1	
	A. <>		
	B. <> or ""		
	C. ""		
	D. #		
<b>2.2</b>	<b>Solve Any Two of the following.</b>		3 X =
(A)	Design and write a program in C++ using while loop that displays the numbers from 100 to 110.	CO1	
(B)	What is the purpose of constructor? Demonstrate types of constructor with a program.	CO3	
(C)	What is operator overloading? Demonstrate by writing a program.	CO5	
<b>Q.3</b>	<b>Solve Any One of the following.</b>		8
(A)	Write a program in C++ to define a class for employee details like: EmpID, Name, Number of working days. Write functions to read, calculate salary of the month and display. The program should be able to work for 50 employees.	CO1, CO3	
(B)	Create a class string that can work as a user-defined string type. Include constructors to create an uninitialized string, initialize an object with a string at the time of creation, concatenate two strings and displays desired string object.	CO1, CO3	
	*** End ***
