### SECTION-C

- 17) Please read the case “Symphony Metals” below and answer the questions based on it :

Symphony Metals Ltd. was formed some twenty years ago by a metal-processing manufacturer based in Mumbai. The company manufactures bathroom fixtures and fittings, principally for plumbing applications (including taps, joints and shower fittings). A wide range of end users exist, including domestic householders and industrial/ institutional buyers.

The company exports its products to a number of countries in Europe and America. In the last year it achieved market share of 6 per cent in Germany, 10 per cent in France and 3 per cent in Belgium. In addition, 5 per cent of total production was shipped to a major wholesaler in Miami, U.S.A. The wide range of fittings varies in size, style, colour, metal and plastic finishings to occupy bottom and top end market positions.

A feasibility study has recently been completed to assess the potential of the UK market. Encouraging results have now stimulated the company to pursue actively the UK market with a target date for entry in ten months time.

**Questions :**

- a) Recommend alternative methods of market entry into UK market
- b) Suggest suitable international marketing mix strategies for UK market
