

R15

Code No: 724AH
JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
MBA IV Semester Examinations, June/July-2018
FINANCIAL DERIVATIVES
Time: 3 hours
Max.Marks:75

Note: This question paper contains two parts A and B.
 Part A is compulsory which carries 25 marks. Answer all questions in Part A.
 Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

PART - A
5 × 5 marks = 25

1. Give brief note on the following:
 - a) Derivative [5]
 - b) Currency Forwards [5]
 - c) Margin in exchange traded derivatives [5]
 - d) Straddle [5]
 - e) Equity Index Swaps. [5]

PART - B
5 × 10 marks = 50

2. Discuss the fundamental linkage between the Spot and Derivatives markets. [10]
- OR**
3. Argue for and against the criticism on misuse of derivative instruments. [10]
- 4.a) A stock has a spot price of \$100. The riskless interest rate is 7% per year (compounded annually), and the expected dividend on the stock is \$3, to be received a year from now. What should be the one-year futures price?
 - b) The price of one ounce of gold for forward delivery in three months is \$435, the interest rate on a 91-day Treasury bill is 1% and the quarterly carrying cost as a percentage of the spot price is 0.2%. Calculate the spot price of an ounce of gold. [5+5]
- OR**
5. Compare and contrast the Forwards and Futures contracts. [10]
 6. A stock price is currently \$50. It is known that at the end of two months it will be either \$53 or \$48. The risk-free interest rate is 10% per annum with continuous compounding. What is the value of a two- month European call option with a strike price of \$49? [10]
- OR**
7. What is the price of a European call option on a non-dividend-paying stock when the stock price is \$52, the strike price is \$50, the risk-free interest rate is 12% per annum, the volatility is 30% per annum, and the time to maturity is three months? [10]
 8. Discuss the trading pattern in the commodities markets in India. [10]
- OR**
9. "There does not seem to be sufficient justification for commodity exchanges in India, considering the fact that it is generally viewed as a speculative activity and is largely shunned by hedgers, farmers or small traders and business houses"- Discuss. [10]

10. Explain the mechanism of a Currency swap, using a flow chart / diagram. [10]
OR
11. Discuss the utility of Credit Default Swap and Credit linked Notes in credit risk management? [10]
