SECTION – B

(Compulsory question, 01 X 10 = 10 Marks)

11 Case study:

You are planning to start a food delivery joint using an app based solution. What challenges do you expect to face while setting up this joint? What security and reliability measures do you need for the software system? What kind of middleware should you be using? How will you integrate the software with the physical side of the business? What kind of interface do you feel you will be using for the business?
