B.TECH.

THEORY EXAMINATION (SEM-VIII) 2016-17 SOFTWARE PROJECT MANAGEMENT

Time: 3 Hours Max. Marks: 100

Note: Be precise in your answer. In case of numerical problem assume data wherever not provided.

SECTION - A

1. Attempt the following:

 $10 \times 2 = 20$

- (a) Explain SPM Framework.
- **(b)** Explain the term Project Scope with example.
- (c) Enumerate the authorities of a Project Manager.
- (d) Compare PERT and CPM.
- (e) Write the steps of software development.
- **(f)** Explain cost benefit Analysis.
- **(g)** What is meant by Software configuration management?
- **(h)** Explain unit testing and system testing.
- (i) What do you mean by Code Inspection?
- (j) What is the difference between change control and version control?

SECTION - B

2. Attempt any five of the following questions:

 $5 \times 10 = 50$

- (a) Give the Overview of the stepwise planning of the software project Development.
- (b) What do you mean by Work Break down Structure in context to software project and product? Discuss with example.
- (c) Explain all types of Risks which occurs during software development.
- (d) Define various type of testing strategies with example
- (e) What do you understand by Verification and validation? Explain their difference with example.
- (f) Write COCOMO model in detail.
- (g) Explain project monitoring and controlling process. Explain different dimensions of project monitoring and control.
- (h) Discuss the different steps of preparing the schedule. What are the Inputs and outputs required by Schedule?

SECTION - C

Attempt any two of the following questions:

 $2 \times 15 = 30$

- **3** What do you understand by "Earned Value Analysis"? Discuss the following Progress indicators:
 - (i) Cost Variance
 - (ii) Schedule performance Index(SPI)
 - (iii) Cost Performance Index (CPI)
- 4 Explain the following:
 - (i) Software Quality Attributes
 - (ii) SEI-CMM
- 5 Explain various types of software project management Tools.
