

5 - Marks

2019 (Feb)

- ① Write about the Management of status epileptics.
- ② Treatment of acute myocardial infarction.
- ③ Management of organo phosphorus poisoning.
- ④ Clinical features of Rheumatoid Arthritis.

2019 (June)

- ⑤ Describe clinical features and treatment of Acute myocardial infarction.
- ⑥ Describe inflammatory bowel disease.
- ⑦ Discuss COPD and its management.
- ⑧ Enumerate risk factor of ischemic stroke and its management.

2020 (Jan - Feb)

- ⑨ Describe diagnostic criteria, clinical features and treatment of Rheumatoid Arthritis.
- ⑩ Discuss aetiology, Pathophysiology, clinical features and management of Heart failure.
- ⑪ Discuss the aetiology, Pathophysiology and clinical features of Aplastic Anemia.

⑫ Discuss aetiology, clinical assessment and treatment of unilateral pleural effusion.

2020 (Aug)

⑬ Describe clinical features and complication of Rheumatic Heart disease.

⑭ Diagnosis and treatment of acute bronchial asthma.

⑮ Describe cirrhosis of liver and its complication.

⑯ Diagnosis and management of Acute meningitis.

2021 (April)

⑰ Describe Etiopathogenesis, clinical features and complications of Rheumatic Heart disease.

⑱ What is epilepsy? What are the different types of seizure disorders.

⑲ Describe etiology, clinical features and complications of cirrhosis of liver.

⑳ What is bronchial asthma? Describe the treatment of status Asthmaticus.

2021 (July)

㉑ Describe clinical features and management of non ST elevation myocardial infarction.

㉒ Discuss COVID 19 pneumonia and treatment.

㉓ Describe nonalcoholic fatty liver disease.

(24) Describe types of diabetic neuropathy.

2021 (November)

(25) Write in brief about the diagnosis and treatment of acute coronary syndrome.

(26) Discuss etiology, Pathophysiology, clinical features, investigation, and principles of management of chronic myeloid leukaemia.

(27) Describe Pathology, diagnosis (2) management of Pleural Effusion.

(28) Define seizures. Discuss the various types of seizure disorder.

2022 (May)

(29) Write in brief about the clinical features and management of Acute bacterial meningitis.

(30) Describe the etiology and clinical features of cirrhosis.

(31) Discuss the aetiology, clinical features and treatment of community acquired pneumonia.

(32) Describe the clinical features and management of Ulcerative colitis.

3 - Marks

2019 (feb)

- ① clinical features of Bronchiectasis.
- ② management of chronic myeloid leukemia.
- ③ clinical features of ulcerative colitis.
- ④ complications of infective endocarditis.

2019 (June)

- ⑤ Treatment of infective endocarditis.
- ⑥ clinical features of SLE.
- ⑦ Pneumothorax.
- ⑧ Treatment of chronic hepatitis.

2020 (Jan - feb)

- ⑨ diagnostic criteria of SLE.
- ⑩ Non alcoholic fatty liver disease.
- ⑪ Methanol Poisoning.
- ⑫ Pulmonary function test.

2020 (Aug)

- ⑬ treatment of Rheumatoid arthritis.
- ⑭ complication of sickle cell disease.

⑮ Treatment of status epilepticus.

⑯ clinical features and treatment of iron deficiency Anemia.

2021 (April)

⑰ Treatment of Rheumatoid Arthritis.

⑱ celphos Poisoning.

⑲ Risk factors for ischemic stroke.

⑳ major Histocompatibility complex.

2021 (July)

㉑ Treatment of megaloblastic Anaemia.

㉒ management of Heart failure.

㉓ Treatment of trigeminal Neuralgia.

㉔ Treatment of venomous snake bite.

2021 (November)

㉕ clinical features and differential diagnosis of UBS.

㉖ multiple myeloma.

㉗ organo-phosphorous Poisoning.

㉘ Diagnosis and management of COPD.

2022 (May)

②⑨ Autoantibodies in systemic lupus Erythematosus.

③⑩ Treatment of celphos Poisoning.

③⑪ Management of Acute anaphylactic Reaction.

③⑫ Describe clinical features and complications of Mitral stenosis.

2019 (feb)

- ① 2 causes of oedema over feet.
- ② Two causes of extensor plantar response.
- ③ Differential diagnosis of Bronchial breathing.
- ④ Cardiac causes of Hemoptysis.
- ⑤ Causes of icterus with splenomegaly.
- ⑥ Causes of macrocytic anemia.
- ⑦ Causes of water Hammer pulse.
- ⑧ Complications of Portal Hypertension.
- ⑨ Differential diagnosis of Pansystolic murmur.

2019 (June)

- ⑩ complications of sickle cell disease.
- ⑪ Treatment of Rheumatoid Arthritis.
- ⑫ Causes of non pitting edema.
- ⑬ Causes of microcytic Hypochromic Anemia.
- ⑭ Causes of flapping tremors.
- ⑮ Treatment of organophosphorus poisoning.
- ⑯ Clinical features of Raised intracranial tension.

⑪ Treatment of migraine.

⑫ Differential diagnosis of Massive splenomegaly.

2020 (Jan - feb)

⑬ Name four Hepatotoxic drugs.

⑭ List four causes of Hematemesis.

⑮ Auto Antibodies in SLE.

⑯ four causes of Atrial fibrillation.

⑰ Name four indications for bone marrow transplantation.

⑱ Four complications of seizures.

⑲ Four clinical Features of Migraine.

⑳ four clinical features of sarcoidosis.

㉑ Name four anti-epileptic drugs.

2020 (August)

㉒ four causes of Ascitis.

㉓ four causes of Extensor Plantar response.

㉔ Glass glow coma scale.

㉕ Management of Acute myloid leukemia.

㉖ Diagnosis of Pulmonary tuberculosis.

- ③③ Four causes of Atrial fibrillation.
- ③④ Differential diagnosis of diastolic murmur at mitral Area.
- ③⑤ Treatment of Chronic Hepatitis B.
- ③⑥ Paraneoplastic syndrome.

2020 (April)

- ③⑦ Four causes of megaloblastic Anemia.
- ③⑧ Four causes of clubbing.
- ③⑨ Four clinical features of Acute Pulmonary edema.
- ④⑩ Four causes of unilateral Headache.
- ④⑪ Four complication of Chronic Pancreatitis.
- ④⑫ Four causes of small size Pupil.
- ④⑬ Four investigations to diagnose SLE.
- ④⑭ Four causes of Atrial fibrillation.
- ④⑮ Four causes of Ascites.

2021 (July)

- ④⑯ Name fibrinolytic agents used in ST elevation myocardial infarction.
- ④⑰ complications of Acute Pancreatitis.

48) Lifestyle modification to manage hypertension.

49) causes of secondary Hypertension.

50) causes of Atrial fibrillation.

51) Hypertrophic osteoarthropathy (grade IV clubbing).

52) Describe Parkinson's gait.

53) Treatment of Hepatic encephalopathy.

54) Hematological Parameters of Anaemia of chronic inflammation.

2021 (November)

55) signs of mitral stenosis.

56) Raynaud's Phenomenon.

57) Name any four anti-epileptic drugs.

58) four features of systemic sclerosis.

59) covid-19 lab Markers.

60) 4 complications of infective endocarditis.

61) 4 causes of spastic paraplegia.

62) Write 4 causes of clubbing.

63) Treatment of status epilepticus.

2022 (May)

⑥4 4 most common causes of Massive splenomegaly.

⑥5 4 differences between UMN and LMN Lesions.

⑥6 Name 4 investigations for thalassemia.

⑥7 4 clinical features of raised intracranial tension.

⑥8 Name any 4 complications of Acute Pancreatitis.

⑥9 Write 4 causes of Palpitation.

⑦0 Write 4 causes of ascites.

⑦1 Write 4 causes of bilateral Pleural effusion.

⑦2 Write 4 causes of Pansystolic Murmur at Apex.
