

5 - Marks

2019 (feb)

- ① Write the brief how tuberculosis affect central nervous system.
- ② Describe management of diabetic ketoacidosis.
- ③ Describe Etiology of Acute Kidney injury.
- ④ Write in brief about complications of Malaria fever.

2019 (June)

- ⑤ Discuss the clinical features, diagnosis, complications and management of H₁N₁ influenza.
- ⑥ Write the clinical features and management of diabetic ketoacidosis.
- ⑦ Describe the aetiopathogenesis, clinical features and management of Acute glomerulonephritis.
- ⑧ Discuss the pathogenesis, diagnosis, and treatment of Acute Rheumatic fever.

2020 (Jan - feb)

- ⑨ Classification of Diabetes Mellitus. Write about diagnostic criteria, clinical features, management of Diabetes mellitus.
- ⑩ Write etiology, Pathogenesis of Pulmonary tuberculosis and its systemic complications.

⑪ Write about Acute Renal failure, its definition, etiology, clinical features and management.

⑫ Write about Acute HIV infection, WHO classification of AIDS, and management.

2020 (August)

⑬ Discuss clinical features, complications and management of dengue fever.

⑭ Describe the etiology, clinical features, investigation and treatment of diabetic ketoacidosis.

⑮ Describe the etiology, clinical features, complication and management of bipolar disorder.

⑯ Discuss pathophysiology, clinical features, diagnosis and treatment of grave's disease.

2021 (April)

⑰ Describe types, clinical features and management of acute kidney injury.

⑱ Describe sepsis and its management.

⑲ Describe causes, clinical features and management of Cushing syndrome.

⑳ Describe types of psoriasis, clinical features and its treatment.

2021 (July)

(21) Describe the clinical features and complications of COVID 19 disease.

(22) Describe the causes and complication of chronic kidney disease.

(23) Describe the clinical features and management of Hypothyroidism.

(24) Write in brief clinical features and management of Hypoglycemia.

2021 (November)

(25) Classify Diabetes Mellitus & management with mention of Newer OHA's.

(26) Describe clinical features, diagnosis, complications and management of COVID 19 disease.

(27) Describe the causes and complications of chronic kidney disease.

(28) Describe clinical features and complications of dengue fever.

2022 (May)

(29) Write in brief causes of Nephrotic syndrome and treatment of Nephrotic syndrome.

(30) Describe aetiology, clinical features, investigations & management of Hyperthyroidism.

③① Discuss Aetiopathogenesis, clinical features, Investigations ② management of Enteric (Typhoid - fever).

③② Describe the clinical features and complications of COVID 19 disease.

2019 (Feb)

- ① Write in brief diagnosis of Cushing's syndrome.
- ② Discuss balanced diet.
- ③ Short note on obsessive compulsive disorder.
- ④ Describe neurological complications of diphtheria.

2019 (June)

- ⑤ Clinical features of Hypothyroidism.
- ⑥ Eating disorders.
- ⑦ Pneumocystis jirovecii.
- ⑧ Clinical characteristics of different types of Leprosy.

2020 (Jan-Feb)

- ⑨ Write about dialysis Phosphate its indications.
- ⑩ Application of genetic engineering in medicine.
- ⑪ Depression and its management.
- ⑫ Write about Thyroid disorders.

2020 (August)

- ⑬ Prophylaxis for opportunistic infection in HIV infection.

⑭ Pellagra.

⑮ clinical characteristic of different types of leprosy.

⑯ Addison's disease.

2021 (April)

⑰ diagnostic criteria of diabetes mellitus.

⑱ diagnostic criteria of metabolic syndrome.

⑲ Immune reconstitution inflammatory syndrome (IRIS) in HIV.

⑳ Treatment of urinary tract infection during pregnancy.

2021 (July)

㉑ cytokine storm.

㉒ Dapagliflozin.

㉓ clinical features of Cushing syndrome.

㉔ Nephrotic syndrome.

2021 (November)

㉕ Jaundice. Types, management and complications.

㉖ Clinical manifestation of Hypopituitarism.

㉗ stem cell therapy

②⑧ Clinical characteristics of different types of Pemphigus.

2022 (May)

②⑨ What are complications of long standing diabetes.

③⑩ clinical features and management of Psoriasis.

③① clinical characteristics of - Turner's syndrome.

③② Dapagliflozin.

2019 (Feb)

- ① indication of ART.
- ② Treatment of Pseudomembranous colitis.
- ③ Treatment of Hyper thyroidism.
- ④ Lepa Reaction.
- ⑤ features of Nephritic syndrome.
- ⑥ Differential diagnosis of Erythema nodosum.
- ⑦ causes of fever with Relative bradycardia.
- ⑧ Tietz's syndrome.
- ⑨ Treatment of Herpes zoster.

2019 (June)

- ⑩ stages of lupus Nephritis.
- ⑪ Name any four causes of Metabolic acidosis.
- ⑫ Name any four ectopic Hormones Produced by tumors.
- ⑬ Name four medicine for scabies.
- ⑭ Mention four neurological features of vitamin - B12 deficiency.
- ⑮ Name four sexually transmitted Infections Presenting as genital ulcers.

⑩ Name four Anti-retroviral drugs.

⑪ Name four common opportunistic infection seen in HIV infection.

⑫ List four causes of delirium in the elderly.

2020 (Jan-Feb)

⑬ Parenteral Nutrition.

⑭ Haematuria.

⑮ Psychosis.

⑯ Contact dermatitis.

⑰ Lepra Reaction.

⑱ Organ donation.

⑲ Liddle syndrome.

⑳ Measles.

㉑ H₁N₁ infection.

2020 (August)

㉒ four causes of metabolic alkalosis.

㉓ four causes of Hyperkalemia.

㉔ List four DPP4 inhibitors.

㉕ causes of Acute Renal failure.

- ③② clinical features of Hypothyroidism.
- ③③ four drugs to treat schizophrenia.
- ③④ four complications of obesity.
- ③⑤ List four drugs in treating anaphylaxis.
- ③⑥ Name any four ectopic Hormone production by tumors.

2021 (April)

- ③⑦ Treatment of bullous Pemphigoid.
- ③⑧ Treatment of Hyperthyroidism.
- ③⑨ Name four DPP-IV inhibitors.
- ④⑩ Anorexia Nervosa.
- ④⑪ Effects of alcohol on nervous system.
- ④⑫ Names four oral lesions in HIV.
- ④⑬ KDIGO classification of chronic kidney diseases.
- ④⑭ Name four drugs used in the treatment of leprosy.
- ④⑮ Name four drugs used in the treatment of Proteinuria.

2021 (July)

- (46) four drugs for treatment of leprosy.
- (47) four second line drugs for treatment of tuberculosis.
- (48) four drugs for treatment of psoriasis.
- (49) four complications of Plasmodium falciparum Malaria.
- (50) Treatment of schizophrenia.
- (51) four functions of skin.
- (52) four causes of superior vena cava syndrome.
- (53) four complications of enteric fever.
- (54) Treatment of chloroquine resistant Malaria.

2021 (November)

- (55) DOTS guidelines.
- (56) SIADH.
- (57) clinical feature of iron deficiency Anemia.
- (58) four causes of superior vena cava syndrome.
- (59) 4 causes of Hematuria.
- (60) 4 causes of Hoarseness of voice.

⑥1 List four drug in treating anaphylaxis.

⑥2 four drugs to treat schizophrenia.

⑥3 Four complications of Plasmodium falciparum malaria.

2022 (may)

⑥4 Features of cyanocobalamin deficiency.

⑥5 Treatment of malaria.

⑥6 Four features of obsessive compulsive disorder.

⑥7 Recent definition of fever of unknown origin (FUO).

⑥8 Definition criteria for metabolic syndrome.

⑥9 Enumerate four causes of → Normal Anion gap Metabolic Acidosis.

⑦0 four second line drugs for treatment of tuberculosis.

⑦1 four drugs for treatment of leprosy.

⑦2 Four causes of superior vena cava syndrome.
