

5-Marks

2019 (Feb)

- ① Describe the management of septic shock in brief.
- ② Enumerate the causes and management of single thyroid nodule.
- ③ Describe the clinical features and management of stage ③ carcinoma of breast.
- ④ Describe the classification, clinical features and management of fracture neck of femur.
- ⑤ Etiopathology, clinical features, radiological features and management of osteosarcoma.

2019 (June)

- ⑥ causes and management of Hypovolumic shock.
- ⑦ Clinical features and management of buerger's disease.
- ⑧ staging and management of carcinoma breast.
- ⑨ Define chronic osteomyelitis discuss clinical features and management.
- ⑩ classification of fractures. Discuss management of open fractures.

2020 (Jun - feb)

- ⑪ classify thyroid swellings. Write down the clinical features and management of Graves's disease.
- ⑫ Describe the Pathophysiology of thermal burns and outline the management of a 40% burn patient.
- ⑬ classify breast cancer. describe the spread, clinical presentation and management of invasive ductal carcinoma of breast.
- ⑭ Describe supracondylar fracture Humerus in children under Headings of clinical features management and complications.
- ⑮ Describe POTT's spine and its management.

2020 (August)

- ⑯ Discuss the aetiopathogenesis of burget's disease and its management.
- ⑰ Write clinical features of Head injury and its management.
- ⑱ Discuss the Process of Wound Healing and management of Non-Healing Ulcer.
- ⑲ Describe supracondylar fracture of Humerus in children under Headings of clinical features, management, and complications.
- ⑳ Describe Ewing's tumour.

2021 (April)

- ②1 Define shock. Discuss the management of septic shock.
- ②2 Discuss the clinical features and management of locally advanced breast cancer (LABC).
- ②3 Discuss the management of varicose veins.
- ②4 Discuss clinical features, Pathogenesis and management of Tubercular Arthritis of Hip.
- ②5 Classify Epiphyseal injuries and their management.

2021 (July)

- ②6 Describe the basic Pathophysiology of shock and describe the management of Haemorrhagic shock.
- ②7 Describe the Surgical Anatomy, Pathophysiology and management of varicose veins of the lower limb.
- ②8 Describe the aetiology, Prognostic factors and staging of carcinoma breast with a brief note on management of metastatic carcinoma of breast.
- ②9 Describe osteogenic sarcoma.
- ③0 Describe supracondylar fracture of Humerus in children.

2021 (November)

- ③① staging and management of carcinoma Breast.
- ③② classify shock and discuss clinical features, investigations and treatment of Hypovolemic Shock.
- ③③ Describe Etiology, clinical features, investigations and management of Primary thyrotoxicosis.
- ③④ Describe Etiopathology, diagnosis and management of osteosarcoma.
- ③⑤ Describe stages of tubercular Hip and their management.

2022 (May)

- ③⑥ classify Wounds. Write in detail about Wound Healing and factors affecting Wound Healing.
- ③⑦ classify thyroid swellings and describe the clinical features and management of a multinodular goiter.
- ③⑧ What are the causes of cervical lymphadenopathy, describe the management of tubercular lymphadenitis.
- ③⑨ Describe in detail Pathogenesis and management of Pott's spine.
- ④① Describe supracondylar fracture humerus in children in Heading of clinical features, management and complications.

2019 (Feb)

- ① Write short note on fibroadenoma.
- ② Prevention of deep vein thrombosis.
- ③ Thromboangitis obliterans investigations and management.
- ④ Tubercular arthritis of Hip joint.
- ⑤ Volkmann's ischaemic contracture.

2019 (June)

- ⑥ Tension Pneumothorax.
- ⑦ compartment syndrome.
- ⑧ solitary thyroid nodule.
- ⑨ Ponseti Technique.
- ⑩ Colles' fracture.

2020 (Jan-Feb)

- ⑪ Glasgow coma scale.
- ⑫ Gas gangrene.
- ⑬ complications of blood transfusion.
- ⑭ VIC.

⑮ osteosarcoma

2020 (August)

⑯ Phylloids Tumor.

⑰ Retro Mammary Abscess.

⑱ Flail chest.

⑲ Describe non Union.

⑳ What is frozen shoulder.

2021 (April)

㉑ What is enteral nutrition. Enumerate its advantages.

㉒ What should the management of a burn patient in the first 24 hours after the burn injury.

㉓ Write a short note on pleomorphic adenoma of the Parotid gland.

㉔ Fracture of necessity.

㉕ club foot.

2021 (July)

㉖ clinical features and management of fracture ribs.

㉗ clinical features and investigation done in thyrotoxicosis.

㉘ Premalignant lesions of oral cavity.

(29) Write short note on nonunion.

(30) Write short note on Volkman's ischaemia.

2021 (November)

(31) Describe Pleomorphic Adenoma and its management.

(32) surgical audit.

(33) Tension Pneumothorax.

(34) Non union of fractures.

(35) DDH.

2022 (May)

(36) Diagnostic laparoscopy.

(37) Write complications of blood transfusion.

(38) Define carbuncle. Write a short note about it.

(39) Tardy nerve Palsy.

(40) Ortolani test.

1 Marks

2019 (Feb)

- ① What is wet gangrene.
- ② Necrotizing fasciitis.
- ③ indications and contraindications for enteral feeding.
- ④ Definition of oncogene.
- ⑤ ATLS philosophy in trauma.
- ⑥ Healing by secondary intention.
- ⑦ De quervain's disease.
- ⑧ club foot shoes.
- ⑨ Ortolani's test.
- ⑩ Galeazzi fracture.

2019 (June)

- ⑪ Damage of which nerve leads to wrist drop.
- ⑫ Types of thyroiditis.
- ⑬ What are the clinical features of fibroadenoma breast.
- ⑭ What is Angular dermoid.
- ⑮ What is lipoma.

⑩ synergistic gangrene.

⑪ myositis ossificans.

⑫ PPRP Rehabilitation.

⑬ GCT.

⑭ Osteomalacia.

2020 (Jan-feb)

① What is mandor's disease.

② Dermoid cyst.

③ Universal precautions.

④ factors affecting Wound Healing.

⑤ Thyroglossal cyst.

⑥ Marjolin's ulcer.

⑦ PUMP HANDLE TEST.

⑧ Osteomyelitis of GARRE'S.

⑨ Trigger finger.

⑩ Volkmann sign.

2020 (August)

31) What is saint's triad.

32) What is Grey Turner's & Cullen's sign.

33) What is the difference between Trousseau's sign and Trousseau's sign.

34) What is the difference between sinus and fistulas.

35) What is the difference between Hypertrophic scar and Keloid.

36) What is Mondor's disease.

37) What is Volkmann's ischemia.

38) Enumerate complications of Colles' fracture.

39) Kienbock's disease.

40) Triple deformity of knee.

2021 (April)

41) Carabuncle.

42) Define intermittent claudication.

43) Risk factors for carcinoma cheek.

44) Management of breast fibroadenosis.

45) Sistrunk operation.

(46) Why is an underwater seal needed for chest tube drainage.

(47) osteoid osteoma.

(48) Looser's zone.

(49) Alendronate.

(50) chance fracture.

2021 (July)

(51) Pilonidal sinus.

(52) Lucid Interval.

(53) keloid.

(54) Rodent ulcer.

(55) Factors affecting Wound Healing

(56) cold abscess.

(57) Enumerate stages of tuberculosis of Hip.

(58) Dequervain's disease.

(59) Definition of fracture.

(60) What is sequestrum.

2021 (November)

- (61) Describe sistrunk operation.
- (62) Describe "Rule of nine".
- (63) Venous ulcers.
- (64) Intermittent claudication.
- (65) Damage control surgery.
- (66) Intravenous pyelogram.
- (67) Enumerate stages of fracture healing.
- (68) Galeazzi fracture.
- (69) Tennis Elbow.
- (70) sequestrum.

2022 (May)

- (71) Ingrowing toe nail.
- (72) Name two indications for ICD.
- (73) Neo-Adjuvant chemotherapy.
- (74) Vacuum assisted closure.
- (75) Rule of Nine.
- (76) Indications and contraindications of TPN.

⑦⑦ Smith's fracture.

⑦⑧ Ewing's sarcoma.

⑦⑨ Rickets.

⑧⑩ Non-union of fractures.
