

5-Marks

2019 (Feb)

- ① Investigation and management of stone in lower 3rd of ureter.
- ② Discuss etiopathogenesis and clinical feature of Portal Hypertension.
- ③ Management of carcinoma colon.
- ④ Management of a patient, with serum bilirubin—15 mg. [direct 11, indirect 4, s ALKAline Phosphatase-200IU].

2019 (June)

- ⑤ Clinical features and management of carcinoma stomach.
- ⑥ Clinical features and management of carcinoma Anal canal.
- ⑦ Classify testicular tumours and its management.
- ⑧ Management of enterocutaneous fistula.

2020 (Jan - Feb)

- ⑨ Write about the clinical features and Management of duodenal Perforation.
- ⑩ Discuss the etiopathogenesis and management of Acute appendicitis.

⑪ Write in brief about clinical features of Haemorrhoids and management.

⑫ Classify testicular tumor and management.

2020 (August)

⑬ Enumerate the complications of peptic ulcer. Write down the clinical features and management of Acute Perforation of duodenal ulcer with generalized peritonitis.

⑭ Describe the pathogenesis, clinical presentation and management of Acute calculous cholecystitis.

⑮ Describe the etio-pathogenesis of Acute appendicitis. Write down the clinical presentation and management of a case of Acute obstructive appendicitis.

⑯ Write down the pathogenesis, clinical features, diagnosis and management of pseudo-pancreatic cyst.

2021 (April)

⑰ Discuss the clinical features and management of benign prostatic hyperplasia.

⑱ Discuss the presentation and management of intestinal tuberculosis.

⑲ Discuss the management of renal carcinoma.

⑳ Discuss the clinical features and management of Acute pancreatitis.

2021 (July)

- (21) describe the aetiopathology, clinical features, investigation and management of gall stones.
- (22) Describe the aetiopathogenesis, clinical features and management of benign prostatic hypertrophy.
- (23) Enumerate the causes of Acute intestinal obstruction. Describe the clinical features and management of intussusception in an infant.
- (24) Enumerate the various causes of Haematuria. Describe the clinical features and management of Renal cell carcinoma.

2021 (November)

- (25) discuss the clinical features and management of Acute Pancreatitis.
- (26) clinical features, Aetiology and management of cholelithiasis.
- (27) Enumerate various causes of Bleeding Per Rectum, and its management.
- (28) describe surgical Anatomy of thyroid gland. Write down the management of thyroglossal cyst.

2022 (May)

- (29) Describe Hydatid cyst of liver and its management.
- (30) Discuss the presentation & management of intestinal tuberculosis.

③① clinical features, investigations and management of gastric outlet obstruction.

③② Write about the Pathophysiology and management of Peptic ulcer perforation.

2019 (Feb)

- ① Incisional Hernia.
- ② Intravenous Pyelography.
- ③ Oscher-Sherren's regimen.
- ④ Hydrocele.

2019 (June)

- ⑤ Annular Pancreas.
- ⑥ Premalignant conditions of Penile carcinoma.
- ⑦ Wilms tumor.
- ⑧ subcutaneous cyst.

2020 (Jan - Feb)

- ⑨ mesenteric cyst.
- ⑩ Meckel's diverticulum.
- ⑪ Hirschsprung's disease.
- ⑫ Hernia en glissade.

2020 (August)

- ⑬ Enumerate causes of Haematuria.
- ⑭ Amoebic liver Abscess.

⑮ spinal Anaesthesia.

⑯ Dietel's crisis.

2021 (April)

⑰ Tracheo esophageal fistula.

⑱ Hydatid cyst of liver.

⑲ Early gastric cancer.

⑳ Vesical calculus.

2021 (July)

㉑ staging of carcinoma Rectum.

㉒ Oschsner sherrin regimen.

㉓ Seminoma testis.

㉔ splenic trauma.

2021 (November)

㉕ intravenous urography.

㉖ management of carcinoma of stomach.

㉗ Bariatric surgery.

㉘ Recent advances in the management of early cancer breast.

2022 (may)

②⑨ Write about achalasia cardia and its management.

③⑩ Mesh repair for inguinal hernia.

③⑪ Portal Hypertension.

③⑫ ARM.

2019 (Feb)

- ① fissure in ano.
- ② Hypospadias, types and management.
- ③ Amoebic liver Abscess.
- ④ Paraphimosis.
- ⑤ Torsion testis.
- ⑥ Goodsall's Rule.
- ⑦ urethral calculi.
- ⑧ Rectal PolyP.
- ⑨ Dysphagia lusoria

2019 (June)

- ⑩ Alvarado score used to diagnose which condition.
- ⑪ Goodsall's Rule is associated with which condition.
- ⑫ What is Courvisier's law.
- ⑬ Venous gangrene.
- ⑭ Marjolin's Ulcer.
- ⑮ Hemangioma.
- ⑯ Types of gall bladder stone.

(17) Enumerate different position of Vermiform Appendix.

(18) causes of bleeding Per rectum.

2020 (Jan-Feb)

(19) Hydronephrosis.

(20) Charcot's triad.

(21) Spurious diarrhea.

(22) ERCP.

(23) Hesselbach's triangle.

(24) common causes of upper GI bleeding.

(25) Phimosis.

(26) Calot's triangle.

(27) Extra dural Haematoma.

2020 (August)

(28) Charcot's triad.

(29) ERCP.

(30) Mondor's disease.

(31) Extra dural Haematoma.

(32) Medical management of BPH.

33 cleft lip.

34 Barrett's oesophagus.

35 Enumerate the indications for splenectomy.

36 common causes of upper GI bleeding.

2021 (April)

37 Hypersplenism.

38 spinal anaesthesia.

39 Tumour markers.

40 Goodsall's Rule.

41 sliding Hernia.

42 I.V.P.

43 Ochsner - Sherren regimen.

44 Ladd's procedure.

45 Barrett's esophagus.

2021 (July)

46 Types of tracheo-oesophageal fistula.

47 Extracorporeal Shock wave Lithotripsy.

48 Non scalpel vasectomy.

(49) Epidural Anaesthesia.

(50) Brachytherapy

(51) Cardiac tamponade.

(52) Dental cyst.

(53) Ketamine.

(54) Transrectal Ultrasonography

2021 (November)

(55) Goodsall's Rule.

(56) Differentiate between direct and indirect inguinal Hernia.

(57) Describe the GCS score.

(58) Torsion of testis.

(59) Fournier's Gangrene.

(60) Two indications of colonoscopy.

(61) Digital rectal Examination.

(62) Pleomorphic adenoma.

(63) MRCP.

2022(may)

- (64) What is IVP and its uses.
- (65) What is the classification of anal fistula and what is Goodsall's rule.
- (66) What is Hypospadias. What are its types and management.
- (67) State Courvoisier's law (2) its implication.
- (68) Assessment of a Patient with a hard testicular Mass.
- (69) management of Rupture of spleen.
- (70) Abdominal compartment syndrome.
- (71) Epidural Anaesthesia.
- (72) MRCP.
