contraception with emphasis on benefits and hazards
of each.

2019 (Feb)

① Advantages & disadvantages of Endoscopic surgeries in Gynaecology.

② Menopausal Hormonal therapy.

③ Permanent method of contraception.

2019 (June)

④ Iron sucrose use.

⑤ Invasive mole follow up.

⑥ Benign ovarian Mass - Causes.

2020 (Jan - Feb)

⑦ Degenerations in fibroid.

⑧ Lymphatic drainage of cervix.

⑨ Puberty menorrhagia.

2020 (August)

⑩ Ectopic Pregnancy its type and Management in Rupture ectopic.

⑪ What is Primary amenorrhoea and its aetiology.

⑫ Staging of carcinoma cervix.

2021 (April)

⑬ Diagnosis and management of monilial vaginitis.
What are the factors predisposing to this condition.

⑭ supports of the uterus and their importance.

⑮ Copper T-375 A.

2021 (July)

⑯ Hyperprolactinemia.

⑰ Puberty menorrhagia.

⑱ Hormone replacement Therapy.

2021 (November)

⑲ What are the etiological factors for genital organ prolapsed. Write about POP- & classification.

⑳ Complication of IUCD.

㉑ Syndromic approach for STD in Women.

2022 (May)

㉒ Preventive measures for occurrence of Prolapse.

㉓ Molar Pregnancy.

㉔ PCOS.

2-Marks

Date: / / Page no: 6

2019 (Feb)

- ① components of kit-6 for syndromic management of STI.
- ② Two newly introduced contraception method by Government of India.
- ③ POP-Q - staging of genital organ prolapse.
- ④ first line tests used for infertility work up.
- ⑤ High risk factor for carcinoma ovary.
- ⑥ Drugs used for Medical Method regime of MTP.

2019 (June)

- ⑦ HRT.
- ⑧ Primary Infertility.
- ⑨ Blood supply of uterus.
- ⑩ Trichomoniasis.
- ⑪ Pap test.
- ⑫ Genital TB.

2020 (Jan-Feb)

- ⑬ Trichomonas Vaginitis.
- ⑭ supports of the uterus.

⑮ Differentiation between benign and malignant ovarian tumors.

⑯ Indications of diagnostic laparoscopy.

⑰ self breast Examination.

⑱ Emergency contraception.

2020 (August)

⑲ Pap smear.

⑳ High risk factors for ovarian cancer.

㉑ PCOD.

㉒ Pelvic inflammatory disease.

㉓ Non contraceptive uses of combined oral contraceptives.

㉔ Shaw's system of classification for Pelvic organ prolapse.

2021 (April)

㉕ Krukenberg's tumor.

㉖ Induction of ovulation.

㉗ Clinical features of acute PID.

㉘ Non contraceptive uses of oral Pills.

㉙ Follow up of a case of Hydatiform mole.

③① clinical features of endometriosis.

2021 (July)

③② Turner's syndrome.

③③ Mirena.

③④ syndromic management of STI's.

③⑤ Normal semen report.

③⑥ Indications of operative Hysteroscopy.

③⑦ Bartholin's cyst.

2021 (November)

③⑧ What are the indications of Hysterectomy.

③⑨ self breast Examination.

③⑩ Write symptoms and signs of malignant ovarian tumor.

③⑪ HPV vaccine.

③⑫ Complications of laparoscopy.

③⑬ Normal semen report.

2022 (May)

③⑭ signs of ovulation.

③⑮ Palm - Cohen classification of AUB.

④⑤ Dysgerminoma.

④⑥ Emergency contraception.

④⑦ Cryptomenorrhoea — causes.

④⑧ Management of Ectopic Pregnancy.
