IV B.Tech I Semester Examinations, November 2010
WEB TECHNOLOGIES
Computer Science And Engineering

Time: 3 hours   Max Marks: 80

Answer any FIVE Questions
All Questions carry equal marks
⋆ ⋆ ⋆ ⋆ ⋆

1. (a) Create a registration form for creating a new savings account in a bank. Include the features like checkboxes, radio buttons and other control widgets.

   (b) What is a frame? What is the advantage of using a frame? Clearly explain the creation of frames with an example. [8+8]

2. "A BeanInfo Interface is used by the developer"- show how this statement is justified and explain with an example how BeanInfo serves the purpose. [16]

3. (a) Explain the various control statements available with Javascript.

   (b) "Javascript is event driven". What is meant by an event? Show how javascript can handle the events. [10+6]

4. Write a servlet that greets the user by name. Accept the username through a HTML page. Trace the program execution. [16]

5. Write short notes on following:

   (a) Pure Java driver
   (b) Driver Manager
   (c) SQL query
   (d) Order by clause. [4×4]

6. (a) Explain how a server generates dynamic content.

   (b) Give a note on request time errors. [8+8]

7. (a) Explain and show how XML is useful in defining data for web applications.

   (b) Explain the various terms related to Document Type Definition. [8+8]

8. Java server pages simplify the delivery of dynamic web content. Justify this statement with a help of example program. [16]
