

SET - 1

### II B. Tech I Semester Regular Examinations, October/November - 2017 MANAGERIAL ECONOMICS & FINANCIAL ANALYSIS (Common to EEE, ME, ECE, EIE, ECC, AME, AE and Mining Engineering)

Time: 3 hours

Code No: R1621026

Max. Marks: 70

#### Note: 1. Question Paper consists of two parts (**Part-A** and **Part-B**) 2. Answer **ALL** the question in **Part-A**

3. Answer any **Four** Questions from **Part-A** 

### PART -A

| 1. | a) | State the features of Managerial economics.  |        |        | 3M      |        |        |  |
|----|----|--|--------|--------|---------|--------|--------|--|
|    | b) | Define production function.  |        |        | 2M      |        |        |  |
|    | c) | What is price discrimination?  |        |        | 2M      |        |        |  |
|    | d) | What are the advantages and limitations of partnership firm?   |        |        |         | 3M     |        |  |
|    | e) | Explain the significance of double entry system  |        |        |         | 2M     |        |  |
|    | f) | Define functional flow system analysis   |        |        |         | 2M     |        |  |
|    |    |  |        |        | PART -B |        |        |  |
| 2. | a) | Discuss the importance of managerial economics in decision making.   |        |        |         | 7M     |        |  |
|    | b) | What is cross elasticity of demand? Is it positive for substitute or complements?<br>Illustrate in a diagram relating to the demand for coffee to the price of tea.                                      |        |        |         |        | 7M     |  |
| 3. | a) | Why does law of diminishing returns operate? Illustrate with assumed data.   |        |        |         |        | 7M     |  |
|    | b) | The P/V ratio of Lakshmi books Ltd is Rs. 40% and the margin of safety Rs. 30. Calculate BEP and Net Profit. If the sales volume is Rs. 14000/   |        |        |         |        | 7M     |  |
| 4. |    | How a firm attains equilibrium in the short run and in the long run under conditions of 14   |        |        |         |        | 14M    |  |
| 5. |    | perfect competition? Explain.<br>Small is beautiful?. Do you think, this is the reason for the survival of the sole trader 14 from of business organization? Support your answer with suitable examples. |        |        |         |        | 14M    |  |
| 6. |    | How ratios are classified for the purpose of financial analysis? With assumed data 14 illustrate any two types of ratios under each category.  |        |        |         |        | 14M    |  |
| 7. | a) | What is meant by discounting and time value of money? How is it useful in capital 7.   |        |        |         |        | 7M     |  |
|    | b) | ABC company is considering the purchase of two machines A and B each costing<br>Rs:50,000/Earnings after taxes are expected to be as under :   |        |        |         | 7M     |        |  |
|    |    | Year   | 1      | 2      | 3       | 4      | 5      |  |
|    |    | Machine A  | 5,000  | 15,000 | 20,000  | 30,000 | 20,000 |  |
|    |    | Machine B  | 15,000 | 20,000 | 25,000  | 15,000 | 10,000 |  |

i.ARR method ii.NPV method a discount rate of 10%.

# II B. Tech I Semester Regular Examinations, October/November - 2017 MANAGERIAL ECONOMICS & FINANCIAL ANALYSIS

(Common to EEE, ME, ECE, EIE, ECC, AME, AE and Mining Engineering)

Time: 3 hours

Max. Marks: 70

Note: 1. Question Paper consists of two parts (**Part-A** and **Part-B**) 2. Answer **ALL** the question in **Part-A** 

3. Answer any **Four** Questions from **Part-B** 

## PART -A

| 1. | a)  | Differentiate between short term and long term demand forecasting methods.  |     |  |
|----|---|---|-----|--|
|    | b)  | Define cost. How are costs classified?  | 2M  |  |
|    | c)  | List the features of Monopoly competition.  | 3M  |  |
|    | d)  | What is partnership deed?   | 2M  |  |
|    | e)  | What is double entry book keeping?  | 2M  |  |
|    | f)  | Explain time value of money.  | 3M  |  |
|    |   | PART -B   |     |  |
| 2. | a) Discuss the nature of problems studied in managerial economics. What is the importance of the study of such problems in business management? |   |     |  |
|    | b)  | What is promotional elasticity of demand? How does it differ from cross elasticity of demand?   | 7M  |  |
| 3. |   | A Company reported the following results for two years<br>Year Sales Profit<br>I Rs. 40,00,000 Rs. 4,00,000<br>II Rs. 50,00,000 Rs. 6,00,000<br>Calculate BEP, PV ratio, fixes cost and Margin of Safety. | 14M |  |
| 4. | a)  | Explain the concept of Return to Scale and Economics of Scale   | 7M  |  |
|    | b)  | Explain Market Skimming and priority pricing methods.   |     |  |
| 5. |   | Define a joint stock company & explain its basic features, advantages & disadvantages   | 14M |  |

6. Calculate current ratio, debt-equity ratio and proprietary ratio with the help of 14M following information

| Particulars | Amount    | Particulars        | Amount(Rs.) |
|-------------|-----------|--------------------|-------------|
|             | (Rs.)     |                    |             |
| Cash&Bank   | 10,00,000 | Capital(6,00,000   | 60,00,000   |
| balances    |           | shares of Rs.10/-) |             |
