(Compulsory)
Case Study

(1 × 15 = 15)

14. You are the proprietor of an SSI unit manufacturing water pumps. Your distribution channel is only through dealers. You would like to introduce computerized accounting in your organization. You are approaching a software Consultant. He suggests to you that custom made accounting package will be an advantage to organization of your type. But you strongly believe that packages already available in the market may satisfy your need. As a proprietor in this discussion what would be your points to support your idea?
