SECTION – B

(Compulsory Question)

01 X 10 = 10 Marks

11 Case study:

XYZ Ltd., is in the business of manufacturing steel utensils. The firm is planning to diversify and add a new product line. The firm either can buy the required machine or get it on lease.

The machine can be purchased for Rs.15,00,000. It is expected to have a life of 5 years with a salvage value of Rs.1,00,000 after the expiry of 5 years. The purchase can be financed by 20% loan repayable in 5 equal annual installments (inclusive of interest) becoming due at the end of each year. Alternatively, the machine can be taken on year-end lease rentals of Rs.4,50,000 for 5 years. Advice the company on the option it should choose. For your exercise you may assume the following:

Questions:

- (a) The machine will constitute a separate block for depreciation purposes. The company follows WDV method of depreciation, the rate of depreciation being 25%.
- (b) Tax rate is 35% and cost of capital is 20%.
- (c) Lease rentals are to be paid at the end of the year.
- (d) Maintenance expenses estimated at Rs.30,000 p.a. are to be borne by the lessee.
