## **R13**

Set No. 1

## IV B.Tech I Semester Supplementary Examinations, February/March - 2018 AUTOMATION IN MANUFACTURING

(Mechanical Engineering)

Time: 3 hours Max. Marks: 70

Question paper consists of Part-A and Part-B Answer ALL sub questions from Part-A Answer any THREE questions from Part-B \*\*\*\*\*

## PART-A (22 Marks)

a)	What is a production system?	[3]
b)	What is partial automation?	[3]
c)	What are the three major categories used to accomplish assembly of	
	components?	[4]
d)	•	[4]
-		[4]
	<u> </u>	[4]
	PART-B (3x16 = 48 Marks)	
a)		[8]
,	· · · · · · · · · · · · · · · · · · ·	[8]
a)	What are the objectives of flow line automation?	[8]
b)		[8]
a)	What are the methods used in industry to accomplish the assembly process?	[8]
b)	What are the two ways in which transfer of workpart takes place between	
	workstations?	[8]
a)	What are the principles of material handling system?	[12]
b)	What are the components of AS/RS system?	[4]
a)	Explain the principle and structure of adaptive control.	[12]
b)	What is the drawback of adaptive control with optimization?	[4]
a)	What is the inspection procedure followed?	[8]
b)	What are the components of a basic CMM?	[8]
	c) d) e) f) a) b) a) b) a) b) a) b)	<ul> <li>b) What is partial automation?</li> <li>c) What are the three major categories used to accomplish assembly of components?</li> <li>d) What is the primary objective of a guiding system?</li> <li>e) What is the importance of modification function in adaptive control system?</li> <li>f) What are the two categories of inspection?</li> <li>PART-B (3x16 = 48 Marks)</li> <li>a) Differentiate fixed and programmable automation.</li> <li>b) What are the principles of automation?</li> <li>a) What are the design and fabrication considerations in an automated flow lines.</li> <li>a) What are the methods used in industry to accomplish the assembly process?</li> <li>b) What are the two ways in which transfer of workpart takes place between workstations?</li> <li>a) What are the principles of material handling system?</li> <li>b) What are the components of AS/RS system?</li> <li>a) Explain the principle and structure of adaptive control.</li> <li>b) What is the drawback of adaptive control with optimization?</li> <li>a) What is the inspection procedure followed?</li> </ul>
