   b) Discuss the role of ADRs and GDRs

7) a) Briefly explain Tara pore committee report on foreign exchange market?
   b) Explain the International portfolio diversification system?

8) **Case Study:**

The interest rate in XYZ country is 24 per cent annum, whereas it is only 8 per cent annum in the United States. You are considering investing $ 10,000 for 180 days in XYZ's securities but are concerned about the exchange risk. XYZ's currency is *crown*. You find the following quotations in the newspaper in U.S. dollar terms:

| | |
|---|---|
| XYZ country (crown) | $0.1000 |
| 30-days forward | 0.0980 |
| 90-days forward | 0.0970 |
| 180-day forward | 0.0950 |

**Questions.**

a) Calculate the forward premium (discount) of the crown against the U.S. dollar (based on the 180-day quotation).

b) What is the net gain in U.S. dollars from investing in XYZ's securities relative to U.S. securities if it is assumed that the exchange rate in 180 days equals today's spot rate?

c) Suppose the crown depreciates by 10 per cent relative to the dollar in the next 180 days: what is you net gain (or loss) from an uncovered position relative to investment in the United States?

d) What is your net gain (or loss) from a covered position? (Ignore transaction cost).
