

Pathology part-2 (Imp questions)

- * Atherosclerosis
- * Aneurysm
- * Monckenberg's medial sclerosis
- * Fallot's tetralogy
- * Myocardial infarction
- * Endocarditis
- * Aschoff body.
- * Emphysema
- * Chronic obstructive pulmonary disease - Enumerate.
- * Adult respiratory distress syndrome
- * Pneumonia
- * Lung Abscess
- * Bronchial Asthma
- * Bronchiectasis
- * Asbestosis
- * Carcinoma of lungs
- * Reid index
- * Retinoblastoma
- * Rhinosporidiosis
- * Pleomorphic Salivary adenoma
- * Warthin's tumour
- * Leukoplakia of oral cavity.

- ulcerative colitis
- Crohn's Disease
- Different ulcer lesions of large intestine - Enumerate.
- Helicobacter pylori - role in gastric ulcer.
- Peptic ulcers
- Gastric carcinoma
- Linitis plastica
- Carcinoid tumour
- Barrett's Oesophagus
- Neoplastic polyp
- Meckel's diverticulum
- Peutz-Jegher Syndrome.
- Cirrhosis:- Enumerate & Define
- Alcoholic cirrhosis of liver.
- Hemochromatosis
- Hepatocellular carcinoma.
- Cholelithiasis/ Gall stones:- pathogenesis & complications.
- Acute Pancreatitis:- Etiopathogenesis & morphology
- Amoebic liver abscess.
- Hydatid cyst
- Acute viral hepatitis:- Lab diagnosis
- Jaundice:- Prehepatic & posthepatic, urinary findings

- classify tumours of kidney.
- Renal cell carcinoma of kidney.
- Adult polycystic kidney
- Nephrotic Syndrome.
- Diabetic nephropathy.
- Pyelonephritis: chronic, pathology
- Wilms tumour.
- cystic disease of kidney.
- Glomerulonephritis: urine findings in strept. inf
- Nephrolithiasis: Types & etopathogenesis
- classify testicular tumours
- Seminoma of testis: Cause, morphology, etc; tumour markers in testicular tumours
- Premalignant lesions of Penis
- Benign prostatic nodular hyperplasia.
- classify ovarian tumours
- Papillary serous cystadenocarcinoma of ovary - pathology
- Mucinous tumour of ovary.
- Carcinoma of cervix
- Endometriosis
- Leiomyoma
- Germ cell tumour of ovary.

- Teratoma of ovary.
- Hydatiform mole
- Trophoblastic tumors of ovary
- choriocarcinoma.
- Ectopic pregnancy
- Adenomyosis
- Brenner's Tumour
- Granulosa tumour of ovary.
- Dysgerminoma.
- classify tumour of breast
- Infiltrating duct carcinoma of breast
- Fibrocystic disease of breast.
- Fibroadenoma of breast
- Phyllodes tumor of breast.
- Carcinoma of breast
- Prognostic factors of carcinoma of breast
- Paget's disease of breast
- Precancerous lesions of Squamous cell carcinoma of skin.
- Rodent ulcer / Basal cell carcinoma.
- Malignant melanoma
- ~~pt.~~ Pilomatrixoma
- Molluscum contagiosum
- Psoriasis.
- Malignant Melanoma - Site & Microscopy.

- Cushing's Syndrome
- pheochromocytoma
- Thyrotoxicosis
- Hashimoto's thyroiditis: Etiopathogenesis & pathology.
- Graves disease: pathogenesis, pathology.
- Toxic goiter
- Iodine deficiency goiter.
- Multinodular goiter - morphology, pathogenesis.
- classify thyroid tumour
- Papillary carcinoma of thyroid
- Type 1 Diabetes mellitus: Etiopathogenesis
- Type 2 Diabetes mellitus: Etiopathogenesis
- multiple endocrine neoplasia
- Pituitary adenoma: Gruninate types
- Neuroblastoma
- Medullary carcinoma of thyroid
- Glycosylated hemoglobin (HBA1C) - role in diabetes
- Zollinger - Ellison Syndrome.
- Osteosarcoma: Etiology, types, pathogenesis, pathology.
- Osteomyelitis
- Osteoclastoma
- Rheumatoid arthritis

- Gouty arthritis
- Sequestrum
- Paget's disease of Bone.
- Chondroblastoma.
- Ewing Sarcoma
- Gouty Arthritis.
- Rhabdomyosarcoma.
- Pyogenic meningitis
- Astrocytoma.
- Medulloblastoma
- Meningioma.
- Schwannoma
- Subarachnoid hemorrhage - Causes
- Brain Abscess.
- Tuberculous Meningitis.
- Oligospermia & Azospermia
- Name:- Renal function test & Liver function test
