Code No. N0423

**R07** 

Set No.1

## IV B.Tech. I Semester Supplementary Examinations, February/March, 2012 MICRO CONTROLLERS AND APPLICATIONS

(Common to Electronics & Communication Engineering and Bio-Medical Engineering)

Time: 3 hours Max. Marks: 80

#### Answer any FIVE Questions All Questions carry equal marks

\*\*\*\*

|    | ילה ילה ילה ילה  |       |
|----|--|-------|
| 1. | <ul><li>a) Draw and explain the basic architecture of a microcontroller. Also compare microcontrollers with microprocessors.</li><li>b) Draw and explain TCON, TMOD registers of 8051 microcontroller.</li></ul>                         | [8+8] |
| 2. | <ul> <li>a) List and explain arithmetic and logical instructions of 8051 microcontroller.</li> <li>b) Explain the functions of the following instructions of 8051.</li> <li>i. MOV SP, #74 ii. JC 02 iii. INC @R3 iv. CPL 91H</li> </ul> | [8+8] |
| 3. | What is an interrupt? What are the sources of interrupts? Explain the interrupt structure in Intel 8051.   | [16]  |
| 4. | Timer 0 can be used as two 8-bit timer counters. Explain its operation and control. Explain how you can program it such that one 8-bit timer as a timer and the other as an event counter.   | [16]  |
| 5. | Explain the block diagram of keyboard-cum-display controller (8279). Also explain its interfacing with 8051.   | [16]  |
| 6. | <ul><li>a) What are the main features of Keil RTX51?</li><li>b) What are the advantages of using RTOS timer function? Explain with an example.</li></ul>   | [8+8] |
| 7. | <ul><li>a) Draw and explain the basic architecture of 80196 microcontroller.</li><li>b) List and explain the CPU registers of 80196 microcontroller.</li></ul>   | [8+8] |
| 8. | <ul><li>a) Explain the programming model of ARM processor</li><li>b) List and explain different data movement instructions of ARM.</li></ul>   | [8+8] |

## **Answer any FIVE Questions All Questions carry equal marks**

\*\*\*\*

|   |    | ****   |       |
|---|----|--|-------|
|   | 1. | <ul><li>a) Explain the resources in advanced and next generation microcontrollers</li><li>b) Explain the register bank of 8051 microcontroller.</li></ul>  | [8+8] |
| 2 | 2. | <ul> <li>a) List and explain different logical and rotate instructions of 8051 microcontroller.</li> <li>b) What is the difference between a long jump (LJMP), a short jump (SJMP) and absolute jump (AJMP) instructions of 8051.</li> </ul> | [8+8] |
| 2 | 3. | a) Explain interrupt latency and interrupt deadline.   | [0.0] |
|   |    | b) What is non-maskable interrupt? Explain the sources of non-maskable interrupts.   | [8+8] |
| 4 | 4. | What is auto reload time? How do you program Timer 1 as an auto reload timer? State an application of auto reload timer. Also write a program to generate a frequency of 1 kHz using Timer 1.  | [16]  |
| 4 | 5. | List the industrial applications of 8051 micro controller. Also explain the micro controller unit based measurement systems.   | [8+8] |
| ( | 6. | Explain briefly about semaphore, mailbox and message queue.  | [16]  |
|   | 7. | <ul><li>a) Draw and explain the PSW register of 80196 microcontroller.</li><li>b) List and explain different interrupts available in 80196 microcontroller.</li></ul>  | [8+8] |
| 8 | 8. | What are the main features of ARM processors? Draw and explain the architecture of ARM processor.  | [16]  |

#### Answer any FIVE Questions All Questions carry equal marks

|    | All Questions carry equal marks  *****   |         |
|----|--|---------|
| 1. | a) What is a microcontroller? Differentiate microcontrollers and microprocessors.  |         |
|    | b) Explain the internal and external memories of 8051 microcontroller.   | [8+8]   |
| 2. | a) List and explain different data and bit manipulation instructions of 8051 microcontroller.  |         |
|    | b) List and explain different program flow control instructions of 8051 microcontroller.   | [8+8]   |
| 3. | a) What is an interrupt? Explain interrupt handling structure of microcontroller units.  |         |
|    | b) What is polling? How it assigns priorities among interrupt sources.   | [8+8]   |
| 4. | a) What is an auto reload timer? How do you program Timer 1 as an auto reload timer?   |         |
|    | b) What is a free running counter? Explain.  | [8+8]   |
| 5. | What is flash memory? Show and flash memory interfacing with 8051 microcontroller.   | [16]    |
| 6. | <ul><li>a) What is deadlock? How to avoid them?</li><li>b) What is the difference between mailboxes and message queues?</li><li>c) What do you understand from priority inversion problem in scheduling algorithm?</li></ul> | [4+6+6] |
| 7. | <ul><li>a) Explain the memory map in 80196 family MCU systems.</li><li>b) List different flags available in 80196 microcontrollers and explain each of them.</li></ul>   | [10+6]  |
| 8. | <ul><li>a) Explain the main features ARM processors.</li><li>b) List and explain different arithmetic instructions of ARM processor.</li></ul>   | [8+8]   |

### Answer any FIVE Questions All Questions carry equal marks

|    | All Questions carry equal marks  *****  |        |
|----|---|--------|
| 1. | <ul><li>a) How is a microcontroller different from microprocessor?</li><li>Explain main features of 8051 microcontroller.</li><li>b) Explain the interrupt structure of 8051 microcontroller.</li></ul>   | [8+8]  |
| 2. | <ul><li>a) List and explain different data transfer instructions of 8051 microcontroller.</li><li>b) List and explain different jump and branch instructions of 8051 microcontroller.</li></ul>   | [8+8]  |
| 3. | Explain the interrupt structure of 8051 microcontroller. Also explain how the 8051 handles multiple interrupts.   | [16]   |
| 4. | <ul><li>a) What is the difference between a timer and a counter? Explain.</li><li>b) Explain the functions of TCON.0, TCON.1, TCON.2 and TCON.3 in the execution of external interrupt 0 and 1.</li></ul>   | [6+10] |
| 5. | What is an LED? Show and explain how an array of LEDs can be interfaced with 8051 microcontroller.  | [16]   |
| 6. | Explain different software development tools for microcontrollers.  | [16]   |
| 7. | <ul><li>a) Explain IOCO and IOSO registers for timer 1 in 80196.</li><li>b) What are the interrupt sources for synchronous serial transmission and reception in 80196? What are the identification flags and local enable bits for these sources?</li></ul> | [8+8]  |
| 8. | What are the main features of ARM processor? Draw and explain the architecture of ARM processor.  | [16]   |
