

**R09**

**Code No: C8001**

**JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD**

**M.Tech I - Semester Examinations, March 2011**

**APPLIED INDUSTRIAL PNEUMATICS**

**(MECHATRONICS)**

**Time: 3hours**

**Max. Marks: 60**

**Answer any five questions  
All questions carry equal marks**

- - -

1. (a) Explain the role of fluid power in increasing the Productivity in Industries.  
(b) Draw the symbolic representation of any six pneumatic elements and explain their use in pneumatic systems. [12]
2. (a) Describe the airline installation circuit used in pneumatic system.  
(b) Write the advantages of Pneumatic system over hydraulic system. [12]
3. (a) Describe reciprocating air compressor with a neat sketch.  
(b) Explain the operation of a Full step stepper motor with a neat Sketch. [12]
4. Draw and explain the circuit diagram to operate a double acting pneumatic cylinder using 5/2 direction control valve with push button momentary switch. [12]
5. Describe the working of the FRL unit used in Pneumatic system with a neat sketch. [12]
6. (a) Differentiate between pneumatic and electro-pneumatic systems.  
(b) Explain AND, OR and NAND gates used in controlling the pneumatic systems and draw their truth table. [12]
7. Describe the architecture of a PLC with a neat sketch and explain the different types of input and output devices used in a PLC. [12]
8. (a) Explain the use of Fluid logic elements used in controlling the pneumatic systems.  
(b) Differentiate between PI and PID controls used in closed loop control systems. [12]
